

Adyom Foundation

Project Directory Structure

Here is the high-level directory structure for the **Adyom Foundation** project, omitting `node_modules`, `.git`, and build artifacts for clarity.

Project Root

```
.
├── adyom-frontend.zip
├── backend/ # Express.js API server
├── frontend/ # React + Vite frontend application
└── restore.py
```

Backend

The `backend` directory contains an Express.js server connected to MongoDB, organized by MVC patterns.

```
backend/
├── .env
├── package.json
├── src/
├── config/
│   ├── cloudinary.js
│   └── db.js
├── controllers/
│   ├── artworkController.js
│   ├── authController.js
│   ├── blogController.js
│   └── (other resource controllers...)
├── middleware/
│   └── auth.js
├── models/
│   ├── Artwork.js
│   └── Blog.js
```

```
■ ■■■ User.js
■ ■■■ (other mongoose models...)
■■■ routes/
■ ■■■ artworks.js
■ ■■■ auth.js
■ ■■■ blog.js
■ ■■■ (other route definitions...)
■■■ services/
■ ■■■ email.js
■■■ utils/
■■■ server.js
```

Frontend

The **frontend** directory contains a React application built with Vite and Tailwind CSS.

```
frontend/
■■■ package.json
■■■ postcss.config.js
■■■ tailwind.config.js
■■■ vite.config.js
■■■ public/
■ ■■■ images/
■ ■■■ favicon.svg
■ ■■■ icons.svg
■■■ src/
■■■ App.jsx
■■■ main.jsx
■■■ index.css
■■■ api/
■ ■■■ index.js
■■■ components/
■ ■■■ layout/
■ ■ ■■■ DashboardLayout.jsx
■ ■ ■■■ Footer.jsx
■ ■ ■■■ Layout.jsx
■ ■ ■■■ Navbar.jsx
■ ■ ■■■ ProtectedRoute.jsx
■ ■■■ ui/
■ ■■■ avatar.jsx
■ ■■■ badge.jsx
```

- ■■■ button.jsx
- ■■■ card.jsx
- ■■■ input.jsx
- ■■■ separator.jsx
- ■■■ tabs.jsx
- ■■■ textarea.jsx
- context/
 - ■■■ AuthContext.jsx
- lib/
 - ■■■ utils.js
- pages/
 - About.jsx
 - Blog.jsx
 - Home.jsx
 - Login.jsx
 - (other public pages...)
- admin/
 - ■■■ AdminAnalytics.jsx
 - ■■■ AdminUsers.jsx
 - ■■■ (other admin dashboard views...)
- dashboard/
 - DashboardHome.jsx
 - (other user dashboard views...)
